RESTRICTION ELECTION WITH AMENDMENT

Applicants elect to prosecute the Group I claims (1-9). Applicants have amended the claims as described below.

IN THE CLAIMS:

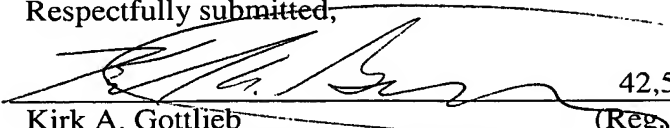

1. (Original) A power conversion device, comprising:
a transformer having a primary input winding and multiple secondary output windings; and
a switched inverter circuit coupled to the secondary output windings and configurable to couple a first output winding with a parallel path inverter and configurable to couple a second output winding with a series path inverter.
2. (Original) The device of claim 1, wherein the series path inverter is a full-bridge inverter.
3. (Original) The device of claim 1, further comprising:
an energy storage device coupled to the parallel path inverter for mitigating voltage disturbances.
4. (Original) The device of claim 1, further comprising:
a filter coupled to the output of the transformer for smoothing output waveforms.
5. (Original) The device of claim 1, further comprising:
an AC/DC converter block coupled to the parallel path inverter for converting Alternating Current (AC) waveforms into Direct Current (DC) waveforms.
6. (Original) The device of claim 5, wherein the AC/DC converter block is a full-bridge converter.
7. (Original) The device of claim 5, wherein the AC/DC converter block is a diode bridge.
8. (Original) The device of claim 1, wherein the series path inverter and the parallel path inverter comprise a plurality of configurable semiconductor switches.
9. (Currently Amended) The device of claim 8, wherein the semiconductor switches are thyristors gate controlled devices.

Claims 10-20. (Cancelled).

The Examiner is invited to call the undersigned attorney at (650) 843-7527, if a telephone call could help resolve any remaining items.
